Index to Volume 131

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (January): 1–96
Number 2 (April): 97–192
Number 3 (July): 193–320
Number 4 (October): 321–472

AUTHOR INDEX

Baker, A. H., & Ledner, A. I. *Body asymmetry affects conjugate lateral eye movement.* 36–51.

Balconi, M., & Pozzoli, U. *N400 and P600 or the role of the ERP correlates in sentence comprehension: Some applications to the Italian language.* 268–302.

Blouin, D. C., & Riopelle, A. J. *The difference between* t *and* z *and the difference it makes.* 77–84.

Blumberg, F. C., & Sokol, L. M. *Boys' and girls' use of cognitive strategy when learning to play video games.* 151–158.

Caessens, B., Hommel, B., Reynvoet, B., & van der Goten, K. *Backward-compatibility effects with irrelevant S–R overlap: The case of the SNARC effect.* 411–425.

Caldwell, E. E., Wallace, P., & Taylor, S. P. *Use of an analog task to study effects of diazepam on taste perception, consummatory behaviors, and risk taking in a social context.* 101–117.

Chang, S. W. C., & Abrams, R. A. *Hand movements deviate toward distracters in the absence of response competition.* 328–344.

Donohue, B., Covassin, T., Lancer, K., Dickens, Y., Miller, A., Hash, A., & Genet, J. *Examination of psychiatric symptoms in student athletes.* 29–35.

Fischer, M. H., & Hoellen, N. *Space- and object-based attention depend on motor intention.* 365–377.

Forti, S., & Humphreys, G. W. *Visuomotor cuing through tool use in unilateral visual neglect.* 379–410.

Gibson, J. M. *Priming problem solving with conceptual processing of relevant objects.* 118–135.

Gibson, J. M., & Meade, M. L. *Priming guesses on a forced-recall test.* 225–241.

Goodie, A. S., & Crooks, C. L. *Time-pressure effects on performance in a base-rate task.* 18–28.

Grabbe, Y., & Pratt, J. *Competing top-down processes in visual selection: Evidence that selection by location is stronger than selection by color.* 137–149.

Helton, W. S. *The development of expertise: Animal models?* 86–96.

Grabbe, Y., & Pratt, J. *Competing top-down processes in visual selection: Evidence that selection by location is stronger than selection by color.* 137–149.

Helton, W. S. *The development of expertise: Animal models?* 86–96.

Honts, C. R., Amato, S., & Gordon, A. *Effects of outside issues on the Comparison Question Test.* 53–74.
Johnson, T. J., & Stahl, C. *Sexual experiences associated with participation in drinking games.* 304–320.
Kalpidou, M. D., Power, T. G., Cherry, K. E., & Gottfried, N. W. *Regulation of emotion and behavior among 3- and 5-year-olds.* 159–178.
Keulen, R. F., Adam, J. J., Fischer, M. H., Kuipers, H., & Jolles, J. *Selective reaching: Distracter effects on movement kinematics as a function of target–distracter separation.* 345–363.
Luminet, O., Curci, A., Marsh, E. J., Wessel, I., Constantin, T., Gencoz, F., & Yogo, M. *The cognitive, emotional, and social impacts of the September 11 attacks: Group differences in memory for the reception context and the determinants of flashbulb memory.* 197–224.
McAuliffe, J. *Differences in attentional set between athletes and nonathletes.* 426–437.
Pilotti, M., Chodorow, M., & Thornton, K. C. *Error detection in text: Do feedback and familiarity help?* 242–266.
Pratt, J., & Abrams, R. A. *Illusory gravitational forces affect aimed limb movements.* 438–450.
Pratt, J., & Fischer, M. H. *Movement, Attention, and Perception.* 325–327.
Symons, L. A., Lee, K., Cedrone, C. C., & Nishimura, M. *What are you looking at? Acuity for triadic eye gaze.* 451–469.
Weatherly, J. N., Bishop, K. L., & Borowiak, D. M. *Effect of upcoming reward type when rats press a lever for ethanol.* 181–192.
Weatherly, J. N., McSweeney, F. K., & Swindell, S. *Within-session rates of responding when reinforcer magnitude is changed within the session.* 5–16.

TITLE INDEX

Backward-compatibility effects with irrelevant S–R overlap: The case of the SNARC effect. *Bernie Caessens, Bernhard Hommel, Bert Reynvoet, & Koen van der Goten.* 411–425.
Body asymmetry affects conjugate lateral eye movement. *A. Harvey Baker & A. Ilan Ledner.* 36–51.
Boys' and girls' use of cognitive strategy when learning to play video games. *Fran C. Blumberg & Lori M. Sokol.* 151–158.
The cognitive, emotional, and social impacts of the September 11 attacks: Group differences in memory for the reception context and the determinants of flashbulb memory. *Olivier Luminet, Antonietta Curci, Elizabeth J. Marsh, Ineke Wessel, Ticu Constantin, Faruk Gencoz, & Masao Yogo.* 197–224.
Competing top-down processes in visual selection: Evidence that selection by location is stronger than selection by color. *Yvonne Grabbe & Jay Pratt.* 137–149.
The development of expertise: Animal models? *William S. Helton.* 86–96.
The difference between *t* and *z* and the difference it makes. *David C. Blouin & Arthur J. Riopelle.* 77–84.
Differences in attentional set between athletes and nonathletes. *Jim McAuliffe.* 426–437.
Effect of upcoming reward type when rats press a lever for ethanol. *Jeffrey N. Weatherly, Kelly L. Bishop, & Dana M. Borowiak.* 181–192.
Effects of outside issues on the Comparison Question Test. *Charles R. Honts, Susan Amato, & Anne Gordon.* 53–74.
Error detection in text: Do feedback and familiarity help? *Maura Pilotti, Martin Chodorow, & Kendell C. Thornton.* 242–266.
Examination of psychiatric symptoms in student athletes. *Brad Donohue, Tracey Covassin, Kevin Lancer, Yani*

Dickens, Abby Miller, Adria Hash, & Jeff Genet. 29–35.
Hand movements deviate toward distracters in the absence of response competition. *Steve W. C. Chang & Richard A. Abrams.* 328–344.
Illusory gravitational forces affect aimed limb movements. *Jay Pratt & Richard A. Abrams.* 438–450.
Movement, Attention, and Perception. *Jay Pratt & Martin H. Fischer.* 325–327.
N400 and P600 or the role of the ERP correlates in sentence comprehension: Some applications to the Italian language. *Michela Balconi & Uberto Pozzoli.* 268–302.
Priming guesses on a forced-recall test. *Janet M. Gibson & Michelle L. Meade.* 225–241.
Priming problem solving with conceptual processing of relevant objects. *Janet M. Gibson.* 118–135.
Regulation of emotion and behavior among 3- and 5-year-olds. *Maria D. Kalpidou, Thomas G. Power, Katie E. Cherry, & Nathan W. Gottfried.* 159–178.
Selective reaching: Distracter effects on movement kinematics as a function of target–distracter separation. *Ron F. Keulen, Jos J. Adam, Martin H. Fischer, Harm Kuipers, & Jelle Jolles.* 345–363.
Sexual experiences associated with participation in drinking games. *Thomas J. Johnson & Courtney Stahl.* 304–320.
Space- and object-based attention depend on motor intention. *Martin H. Fischer & Noemi Hoellen.* 365–377.
Time-pressure effects on performance in a base-rate task. *Adam S. Goodie & C. L. Crooks.* 18–28.
Use of an analog task to study effects of diazepam on taste perception, consummatory behaviors, and risk taking in a social context. *Elizabeth E. Caldwell, Patricia Wallace, & Stuart P. Taylor.* 101–117.
Visuomotor cuing through tool use in unilateral visual neglect. *Sara Forti & Glyn W. Humphreys.* 379–410.
What are you looking at? Acuity for triadic eye gaze. *Lawrence A. Symons, Kang Lee, Caroline C. Cedrone, & Mayu Nishimura.* 451–469.
Within-session rates of responding when reinforcer magnitude is changed within the session. *Jeffrey N. Weatherly, Frances K. McSweeney, & Samantha Swindell.* 5–16.
